

# TRIANGLE MEETING

between Basel - Freiburg - Strasbourg

**LABORMANIFEST #12** . march 23 to 27, 2021  
at ROXY Birsfelden, Switzerland

The program consists of various labs and moderated roundtables through which everyone can grow. The aim is to encourage points of contact, get to know each other better and generate creative fuel.

LABORMANIFEST - organized by the free dance scene in Freiburg since 2015 - opens up as a discursive and performative platform, a space for reflection, vision and further development as well as for research and networking. The format thrives on its collective spirit. The credo is: 'We learn together and from each other'. The individual editions are organized independently by dance professionals.

This edition focuses the exchange between the Tri-border region and is organized by the dancers and choreographers Johanna Heusser, Zina Vaessen and Jasminka Stenz and carried out by Tanzbüro Basel in cooperation and coproduction with ROXY Birsfelden and tanznetz | freiburg, in collaboration with Pole Sud, CDCN Strasbourg.

## # PROGRAM

From Monday to Friday there will be one-hour **professional training** sessions in ROXY Birsfelden, offered by different teachers to warm up the body and start the day dynamically. The professional training is also open to dance professionals from Basel who cannot take part in exchange in order to enable a "minimal exchange" also in this format. The training is free for all participants.

A daily **lunch** for all participants is offered at noon.

In **exchange through creation**, (Wednesday to Saturday) participants work on a piece over four mornings. If desired, the work will be presented in one of the evenings. The process is designed by Alessandro Schiattarella

In **share your artistic practice**, (Wednesday, Friday, and Saturday) dance professionals from the different scenes give insight into their artistic practices.

In the **works-in-progress sharing**, (Wednesday and Friday) participants can present excerpts from current (unfinished) work. It also includes a feedback session and exchange about the work.

The labs **visions and concrete actions** (Thursday and Saturday) provide an opportunity to collect and discuss interests, ideas and needs concerning exchange and for further exchanges within the whole group. The concrete topics discussed will emerge from on-site/hands-on experience. The labs are moderated either by participants or by the organizers.

**On Sunday March 28th a public panel discussion is planned with various actors in the field of cultural work** (LABORMANIFEST ends officially on Saturday evening) about the following topic: Possible approaches to create a sustainable design of networking between the dance scenes in the border triangle.

Furthermore, we are planning a public staging of works from artists of the three cities.

Travel expenses and accommodation costs are covered for participants coming from outside Basel.
