## tanzwuchs | freiburg #5

**performance . May 22 & 23, 2021**  
**rehearsal period . Mai 10 to 21, 2021**  
**application deadline . March 21, 2021**  
**selection announcement . March 26, 2021**

**tanzwuchs | freiburg** supports the professional development of emerging local dance artists and provides them space for scenic research and the encounter with an audience. Young creators are encouraged to take risks and to expose new ideas. In **tanzwuchs|freiburg # 5** different pieces with a maximum of 10 minutes (or shorter) are shown.

For this version there is no specific topic, so we are excited to discover what are dance artists going to propose having this freedom. At the end of the performance the audience will be invited to take part in an open talk with the artists.

The tanzwuchs|freiburg team offers choreographic and dramaturgic guidance. The performers will get a space to rehearse for two weeks and go deeper in their creation processes, to perform and share their compositions. They also get general videoshoot and professional photos from the general rehearsal plus a promotion campaign through teasers, texts, web and social media. There is also a small budget for symbolic payment.

tanzwuchs|freiburg is a format of tanznetz|freiburg, in cooperation with E-WERK and Kulturamt Freiburg and funded by TANZPAKT Stadt-Land-Bund.
